Re: Petition for Rule Making
(Benavides & Hebbbronville, TX)

Dear Ms. Dortch:

Enclosed is an original and four (4) copies of my Petition for Rulemaking proposing to substitute Channel 282A at Hebbbronville, Texas for the vacant allotment, Channel 232A. This petition is filed as part of a "hybrid" contingent proposal, involving both this rulemaking proposal and a minor change application, File No. 20070502ADP.

Respectfully submitted,

A handwritten signature in black ink, appearing to be "Charles Crawford", written over a horizontal line.

RECEIVED & INSPECTED
AUG 17 2007
FCC - MAILROOM

To: Office of the Secretary
Attn: Chief, Audio Division,
Media Bureau

Charles Crawford, winning auction bidder for Channel 282A at Benavides, Texas, hereby submits the instant Petition for Rulemaking to amend the FM Table of Allotments.¹ Petitioner proposes to substitute Channel 299A for Channel 282A at Benavides, Texas (via new 301 procedures); to substitute Channel 232C3 for Channel 299C3 at Benavides, Texas (via new 301 procedures KXTM); to substitute Channel 233C0 for Channel 233C at Harlingen, Texas (via new 301 procedures KFRQ) and substitute Channel 282A for the vacant allotment, Channel 232A at Hebbronville, Texas (via Rule Making).

¹ Pursuant to Revision of Procedures Governing Amendments to FM Table of Allotments and Changes of Community of License in the Radio Broadcast Services, 21 FCC Rcd 14212 (2006), Charles Crawford is contemporaneously filing a Form 301 application for this proposal along with the required filing fee.

<u>City</u>	<u>Channel</u>	
	<u>Present</u>	<u>Proposed</u>
Benavides, Texas	282A	299A via 301 Auction
Benavides, Texas	299C3	232C3 via 301 KXTM
Harlingen, Texas	233C	233C0 via 301 KFRQ
Hebbronville, Texas	232A	282A via RM Vacant

Background:

This Petition for Rule Making is filed as part of a "hybrid" contingent proposal, involving both this rulemaking proposal and a minor change application, File No. 20070502ADP. In addition to the proposed swap of Channel 282A for 232A for the vacant allotment at Hebbronville, contained in this Petition for Rulemaking, the pending minor change application proposes the following three changes:

A non-adjacent channel change, operation on Channel 299A in lieu of Channel 282A at Benavides, Texas (see **Figure 4**).

An involuntary channel change, station KXTM, Benavides, Texas from Channel 299C3 to Channel 232C3 (see **Figure A, Lic site**). Petitioner agrees to reimburse KXTM for reasonable expenses associated with the channel change to 232C3.

The reclassification and downgrade of station KFRQ, Channel 233C to 233C0 at Harlingen, Texas² (see **Figure B, Lic site**). This action is required since no alternative C3 channel is available for the use of KXTM from its existing site.

Technical Discussion:

In order for Channel 299A to be allotted to Benavides, Texas, Channel 282A will need to be substituted for Channel 232A, the vacant allotment at Hebbronville, Texas.

² KFRQ presently operates with 100 kW ERP at 353 meters HAAT which is below the minimum for a Class C FM.

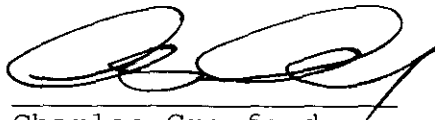

Attached hereto is a channel study (See **Figure C**) confirming that Channel 282A can be substituted for the vacant allotment, Channel 232A at Hebbronville, Texas, consistent with Section 73.207 of the Commission's Rules³ with respect to all existing and proposed domestic allotments and facilities. A 70 dBu allotment signal can be provided to Hebbronville, Texas from the proposed reference coordinates (the coordinates proposed herein are the same as those currently used for the existing allotment).

Reference coordinates for Channel 282A at Hebbronville, Texas are:

27 23 18 N
98 44 26 W

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

Charles Crawford
